

COMPANY PROFILE

Company Profile

Production and sale of technical rubber, rubber-metal and plastic items.

MAR-GOM s.r.l.

About Us

Founded in 1984, Mar-Gom is a company focused on production and commercialisation of technical rubber, rubbermetal and plastic items.

Mar-Gom is able to plan and realize products, through sample or technical drawing, autonomously or following a coengineering logic, in order to support customers in all steps required, from design to supply.

Mar-Gom, thanks to its flexibility, fulfils both large and small enquiries.

Mar-Gom's products find application in more than 60 fields, both industrial and civil.

Fields of Application

Automotive

Agricultural
machinery

Transportation

Aeronautics

Medical
Pharmaceutical

Mission

PLANNING

- Classic
- Reverse Engineering

PRODUCTION

- Rubber
- Plastic

Planning

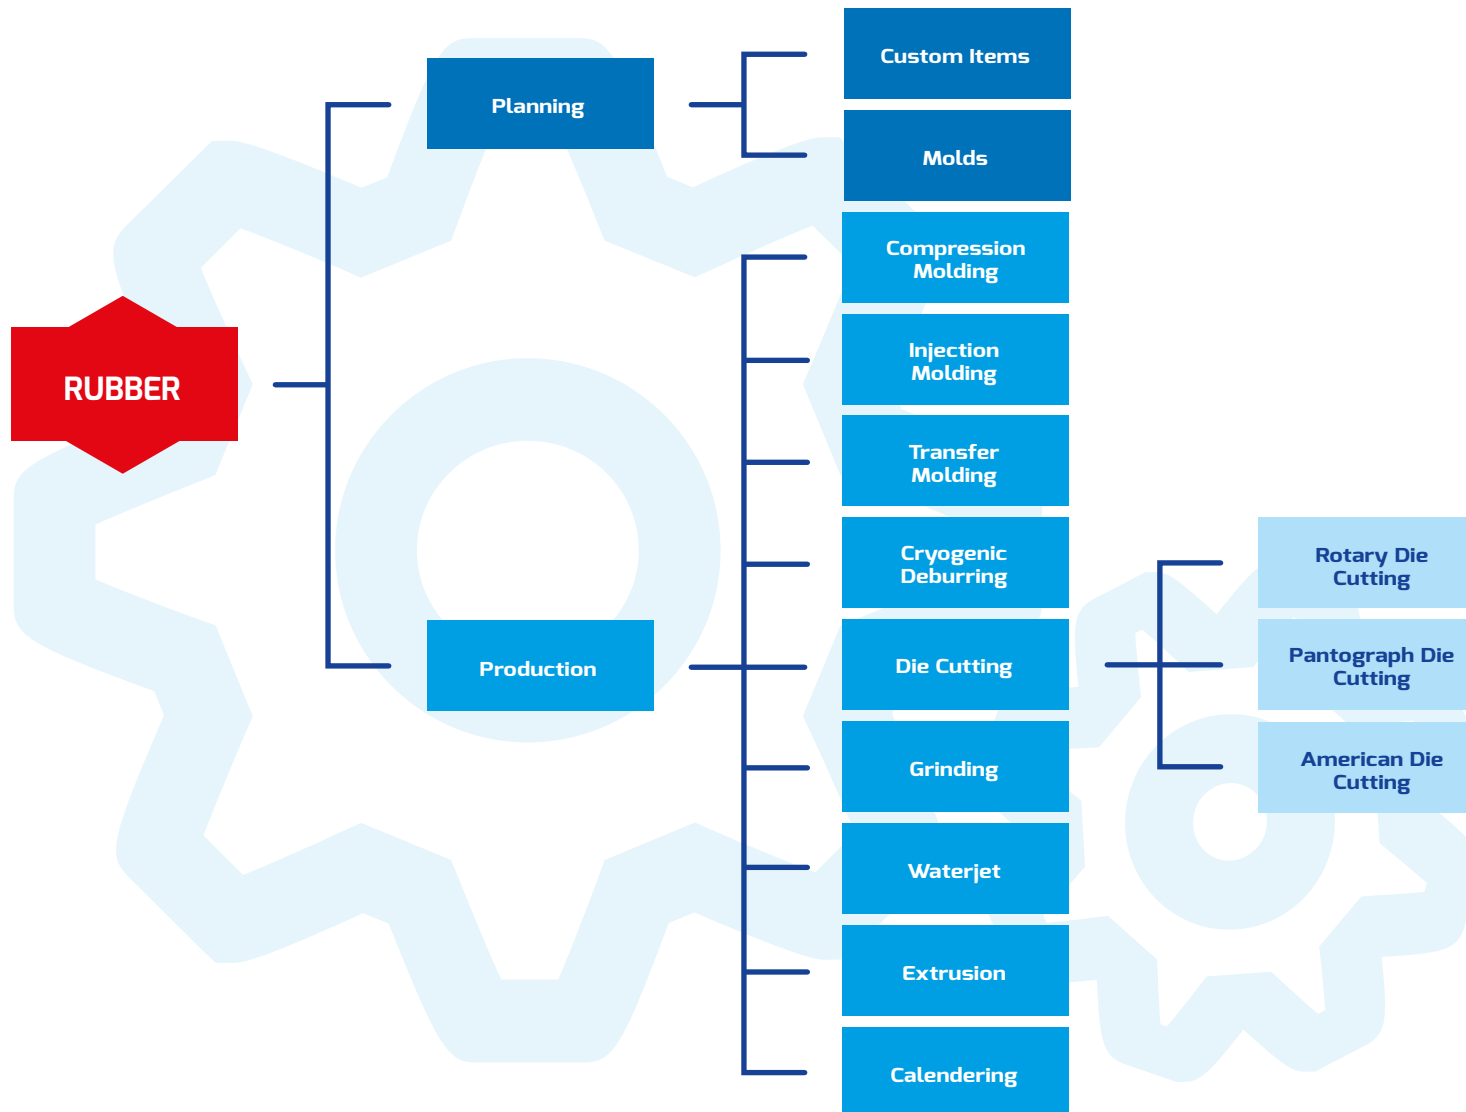

Planning can be both classic and reverse.

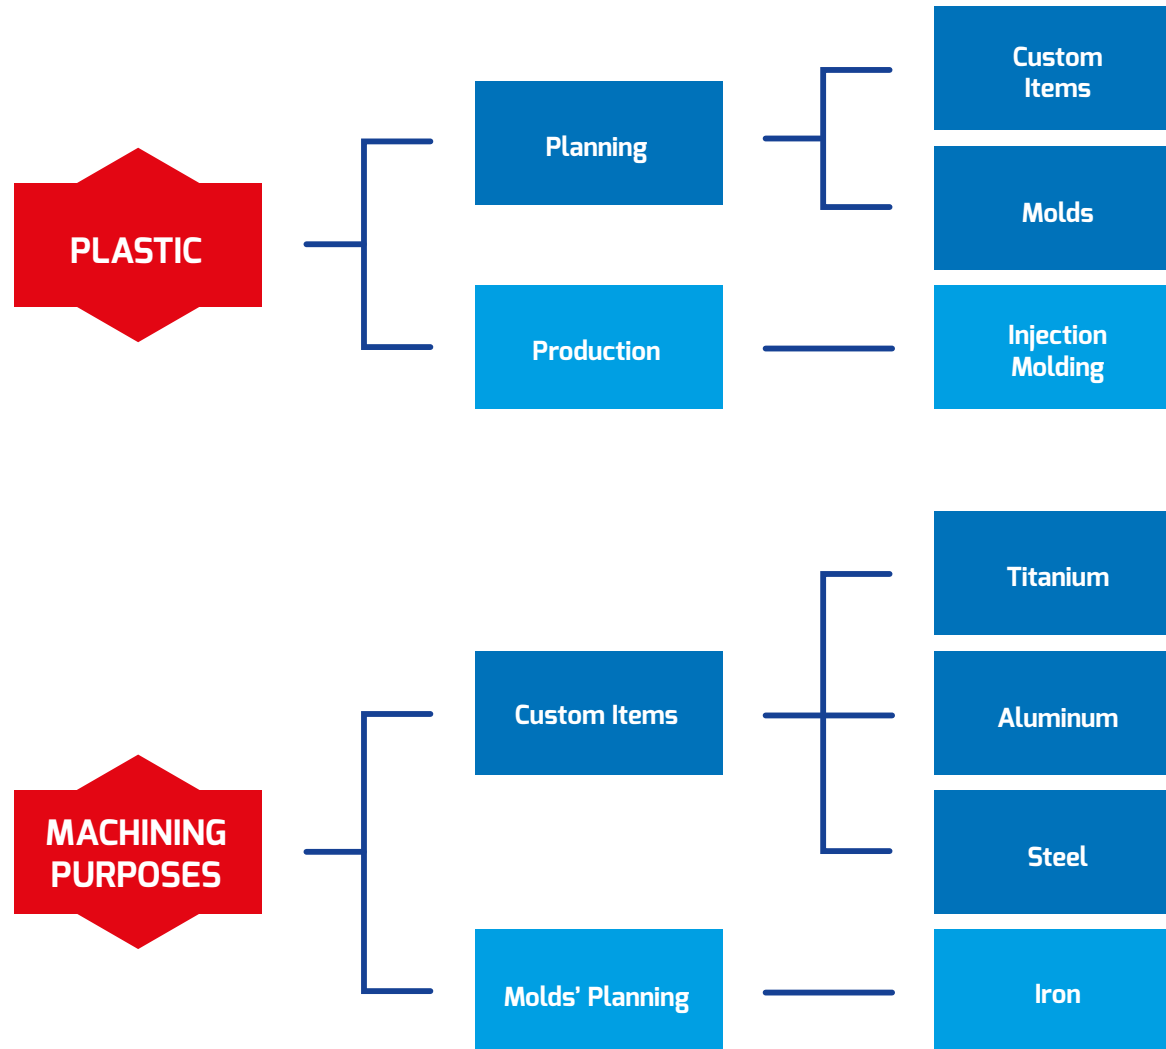

The first case provides for the realization of a pilot mold following the customers' requests. The second case includes the process of extracting design information from the man-made article in order to create the 3D-model which allows to modify or replicate the item analyzed.

Production

Production

Products

Anti-Vibration

Rubber and PVC

Fluids' Gaskets

**Rubber and PVC
molded parts**

**Rubber and synthetic
plates**

**Industrial
Rubber Hoses**

**Plastic
semi-manufactured**
